## **DETAILED ACTION**

### ***Response to Amendment***

1. This action is in response to amendment filed October 20<sup>th</sup>, 2003.

### **REASONS FOR ALLOWANCE**

2. Claims 1-27 are allowable over the prior art.
3. The following is an examiner's statement of reasons for allowance:

Acquaviva 5,859,440 discloses an edge detector using a light source (14) and optical sensor (15) to detect an edge of moving sheet (12). However, Acquaviva does not disclose the detection of a power of Doppler shifted energy. Kadowaki et al 5,216,478 disclose a Doppler velocity meter, comprising light source (1), diffraction grating (10), and sensor (9) to detect the speed of sheet (7). While the teachings of Kadowaki et al do disclose the determination of the velocity, it does not disclose nor suggest that edge detection takes place. It would not have been obvious to combine the teachings of Acquaviva with those of Kadowaki et al. As a result, independent claim 1 and dependent claims 2-27 are allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
